

Plumbing

Plan Review Requirements

1. **SITE PLAN**

Plan(s) showing to scale the size and location of all new construction and all existing structures on the site.

Three (3) sets of plans and specifications signed and sealed by a registered design professional licensed in the state where the construction is to be performed.

- Isometric diagram of potable water supply system with fixtures, locations and WSFU values.
- Isometric diagram of DWV system with fixtures, location and DFU values.
- Hangers and supports.
- Indirect waste piping.
- Details of special devices: Backflow, grease trap, sewer pump, oil separator, and steam boiler.
- Specifications for all fixtures, appliances, piping material and connections for all plumbing systems.
- Design basis for sizing of potable water supply system
- Material designation.
